

COUNCIL ON SOCIAL WORK EDUCATION

Educational Policy and Accreditation Standards

Purpose: Social Work Practice, Education, and Educational Policy and Accreditation Standards

The purpose of the social work profession is to promote human and community well-being. Guided by a person and environment construct, a global perspective, respect for human diversity, and knowledge based on scientific inquiry, social work's purpose is actualized through its quest for social and economic justice, the prevention of conditions that limit human rights, the elimination of poverty, and the enhancement of the quality of life for all persons.

Social work educators serve the profession through their teaching, scholarship, and service. Social work education—at the baccalaureate, master's, and doctoral levels—shapes the profession's future through the education of competent professionals, the generation of knowledge, and the exercise of leadership within the professional community.

The Council on Social Work Education (CSWE) uses the Educational Policy and Accreditation Standards (EPAS) to accredit baccalaureate- and master's-level social work programs. EPAS supports academic excellence by establishing thresholds for professional competence. It permits programs to use traditional and emerging models of curriculum design by balancing requirements that promote comparability across programs with a level of flexibility that encourages programs to differentiate.

EPAS describe four features of an integrated curriculum design: (1) program mission and goals; (2) explicit curriculum; (3) implicit curriculum; and (4) assessment. The Educational Policy and Accreditation Standards are conceptually linked. Educational Policy describes each curriculum feature. Accreditation Standards (*in italics*) are derived from the Educational Policy and specify the requirements used to develop and maintain an accredited social work program at the baccalaureate (B) or master's (M) level.

1. Program Mission and Goals

Educational Policy 1.0—Program Mission and Goals

The mission and goals of each social work program address the profession's purpose, are grounded in core professional values (EP 1.1), and are informed by context (EP 1.2).

Educational Policy 1.1—Values

Service, social justice, the dignity and worth of the person, the importance of human relationships, integrity, competence,¹ human rights, and scientific inquiry are among the core values of social work. These values underpin the explicit and implicit curriculum and frame the profession's commitment to respect for all people and the quest for social and economic justice.

Educational Policy 1.2—Program Context

Context encompasses the mission of the institution in which the program is located and the needs and opportunities associated with the setting. Programs are further influenced by their historical, political, economic, social, cultural, demographic, and global contexts and by the ways they elect to engage these factors. Additional factors include new knowledge, technology, and ideas that may have a bearing on contemporary and future social work education and practice.

Accreditation Standard 1.0—Mission and Goals

The social work program's mission and goals reflect the profession's purpose and values and the program's context.

1.0.1 *The program submits its mission statement and describes how it is consistent with the profession's purpose and values and the program's context.*

1.0.2 *The program identifies its goals and demonstrates how they are derived from the program's mission.*

¹ These six value elements reflect the National Association of Social Workers *Code of Ethics*.

National Association of Social Workers (approved 1996, revised 1999). *Code of Ethics for Social Workers*. Washington, D.C.: NASW.

2. Explicit Curriculum

Educational Policy 2.0—The Social Work Curriculum and Professional Practice

The explicit curriculum constitutes the program's formal educational structure and includes the courses and the curriculum. Social work education is grounded in the liberal arts, which provide the intellectual basis for the professional curriculum and inform its design. The explicit curriculum achieves the program's competencies through an intentional design that includes the foundation offered at the baccalaureate and master's levels and the advanced curriculum offered at the master's level. The BSW curriculum prepares its graduates for generalist practice through mastery of the core competencies. The MSW curriculum prepares its graduates for advanced practice through mastery of the core competencies augmented by knowledge and practice behaviors specific to a concentration.

Educational Policy 2.1—Core Competencies

Competency-based education is an outcome performance approach to curriculum design. Competencies are measurable practice behaviors that are comprised of knowledge, values, and skills. The goal of the outcome approach is to demonstrate the integration and application of the competencies in practice with individuals, families, groups, organizations, and communities. The ten core competencies are listed below [EP 2.1.1–EP 2.1.10(d)], followed by a description of characteristic knowledge, values, skills, and the resulting practice behaviors that may be used to operationalize the curriculum and assessment methods. Programs may add competencies consistent with their missions and goals.

Educational Policy 2.1.1—Identify as a professional social worker and conduct oneself accordingly.

Social workers serve as representatives of the profession, its mission, and its core values. They know the profession's history. Social workers commit themselves to the profession's enhancement and to their own professional conduct and growth. Social workers

- advocate for client access to the services of social work;
- practice personal reflection and self-correction to assure continual professional development;
- attend to professional roles and boundaries;
- demonstrate professional demeanor in behavior, appearance, and communication;
- engage in career-long learning; and
- use supervision and consultation.

Educational Policy 2.1.2—Apply social work ethical principles to guide professional practice.

Social workers have an obligation to conduct themselves ethically and to engage in ethical decision-making. Social workers are knowledgeable about the value base of the profession, its ethical standards, and relevant law. Social workers

- recognize and manage personal values in a way that allows professional values to guide practice;
- make ethical decisions by applying standards of the National Association of Social Workers Code of Ethics² and, as applicable, of the International Federation of Social Workers/International Association of Schools of Social Work Ethics in Social Work, Statement of Principles;³
- tolerate ambiguity in resolving ethical conflicts; and
- apply strategies of ethical reasoning to arrive at principled decisions.

Educational Policy 2.1.3—Apply critical thinking to inform and communicate professional judgments.

Social workers are knowledgeable about the principles of logic, scientific inquiry, and reasoned discernment. They use critical thinking augmented by creativity and curiosity. Critical thinking also requires the synthesis and communication of relevant information. Social workers

- distinguish, appraise, and integrate multiple sources of knowledge, including research-based knowledge, and practice wisdom;
- analyze models of assessment, prevention, intervention, and evaluation; and
- demonstrate effective oral and written communication in working with individuals, families, groups, organizations, communities, and colleagues.

Educational Policy 2.1.4—Engage diversity and difference in practice.

Social workers understand how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple

² National Association of Social Workers (approved 1996, revised 1999). *Code of Ethics for Social Workers*. Washington, DC: NASW.

³ International Federation of Social Workers and International Association of Schools of Social Work. (2004). *Ethics in Social Work, Statement of Principles*. Retrieved January 2, 2008 from <http://www.ifsw.org>

factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers

- recognize the extent to which a culture's structures and values may oppress, marginalize, alienate, or create or enhance privilege and power;
- gain sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups;
- recognize and communicate their understanding of the importance of difference in shaping life experiences; and
- view themselves as learners and engage those with whom they work as informants.

Educational Policy 2.1.5—Advance human rights and social and economic justice.

Each person, regardless of position in society, has basic human rights, such as freedom, safety, privacy, an adequate standard of living, health care, and education. Social workers recognize the global interconnections of oppression and are knowledgeable about theories of justice and strategies to promote human and civil rights. Social work incorporates social justice practices in organizations, institutions, and society to ensure that these basic human rights are distributed equitably and without prejudice. Social workers

- understand the forms and mechanisms of oppression and discrimination;
- advocate for human rights and social and economic justice; and
- engage in practices that advance social and economic justice.

Educational Policy 2.1.6—Engage in research-informed practice and practice-informed research.

Social workers use practice experience to inform research, employ evidence-based interventions, evaluate their own practice, and use research findings to improve practice, policy, and social service delivery. Social workers comprehend quantitative and qualitative research and understand scientific and ethical approaches to building knowledge. Social workers

- use practice experience to inform scientific inquiry and
- use research evidence to inform practice.

Educational Policy 2.1.7—Apply knowledge of human behavior and the social environment.

Social workers are knowledgeable about human behavior across the life course; the range of social systems in which people live; and the ways social systems promote or deter people in maintaining or achieving health and well-being. Social workers apply theories and knowledge from the liberal arts to understand biological, social, cultural, psychological, and spiritual development. Social workers

- utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation; and
- critique and apply knowledge to understand person and environment.

Educational Policy 2.1.8—Engage in policy practice to advance social and economic well-being and to deliver effective social work services.

Social work practitioners understand that policy affects service delivery, and they actively engage in policy practice. Social workers know the history and current structures of social policies and services; the role of policy in service delivery; and the role of practice in policy development. Social workers

- analyze, formulate, and advocate for policies that advance social well-being; and
- collaborate with colleagues and clients for effective policy action.

Educational Policy 2.1.9—Respond to contexts that shape practice.

Social workers are informed, resourceful, and proactive in responding to evolving organizational, community, and societal contexts at all levels of practice. Social workers recognize that the context of practice is dynamic, and use knowledge and skill to respond proactively. Social workers

- continuously discover, appraise, and attend to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant services; and
- provide leadership in promoting sustainable changes in service delivery and practice to improve the quality of social services.

Educational Policy 2.1.10(a)–(d)—Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

Professional practice involves the dynamic and interactive processes of engagement, assessment, intervention, and evaluation at multiple levels. Social workers have the knowledge and skills to practice with individuals, families, groups, organizations, and communities. Practice knowledge includes

identifying, analyzing, and implementing evidence-based interventions designed to achieve client goals; using research and technological advances; evaluating program outcomes and practice effectiveness; developing, analyzing, advocating, and providing leadership for policies and services; and promoting social and economic justice.

Educational Policy 2.1.10(a)—Engagement

Social workers

- substantively and affectively prepare for action with individuals, families, groups, organizations, and communities;
- use empathy and other interpersonal skills; and
- develop a mutually agreed-on focus of work and desired outcomes.

Educational Policy 2.1.10(b)—Assessment

Social workers

- collect, organize, and interpret client data;
- assess client strengths and limitations;
- develop mutually agreed-on intervention goals and objectives; and
- select appropriate intervention strategies.

Educational Policy 2.1.10(c)—Intervention

Social workers

- initiate actions to achieve organizational goals;
- implement prevention interventions that enhance client capacities;
- help clients resolve problems;
- negotiate, mediate, and advocate for clients; and
- facilitate transitions and endings.

Educational Policy 2.1.10(d)—Evaluation

Social workers critically analyze, monitor, and evaluate interventions.

Educational Policy B2.2—Generalist Practice

Generalist practice is grounded in the liberal arts and the person and environment construct. To promote human and social well-being, generalist practitioners use a range of prevention and intervention methods

in their practice with individuals, families, groups, organizations, and communities. The generalist practitioner identifies with the social work profession and applies ethical principles and critical thinking in practice. Generalist practitioners incorporate diversity in their practice and advocate for human rights and social and economic justice. They recognize, support, and build on the strengths and resiliency of all human beings. They engage in research-informed practice and are proactive in responding to the impact of context on professional practice. BSW practice incorporates all of the core competencies.

Educational Policy M2.2—Advanced Practice

Advanced practitioners refine and advance the quality of social work practice and that of the larger social work profession. They synthesize and apply a broad range of interdisciplinary and multidisciplinary knowledge and skills. In areas of specialization, advanced practitioners assess, intervene, and evaluate to promote human and social well-being. To do so they suit each action to the circumstances at hand, using the discrimination learned through experience and self-improvement. Advanced practice incorporates all of the core competencies augmented by knowledge and practice behaviors specific to a concentration.

Educational Policy 2.3—Signature Pedagogy: Field Education

Signature pedagogy represents the central form of instruction and learning in which a profession socializes its students to perform the role of practitioner. Professionals have pedagogical norms with which they connect and integrate theory and practice.⁴ In social work, the signature pedagogy is field education. The intent of field education is to connect the theoretical and conceptual contribution of the classroom with the practical world of the practice setting. It is a basic precept of social work education that the two interrelated components of curriculum—classroom and field—are of equal importance within the curriculum, and each contributes to the development of the requisite competencies of professional practice. Field education is systematically designed, supervised, coordinated, and evaluated based on criteria by which students demonstrate the achievement of program competencies.

Accreditation Standard B2.0—Curriculum

The 10 core competencies are used to design the professional curriculum. The program

B2.0.1 *Discusses how its mission and goals are consistent with generalist practice as defined in EP B2.2.*

B2.0.2 *Identifies its competencies consistent with EP 2.1 through 2.1.10(d).*

B2.0.3 *Provides an operational definition for each of its competencies used in its curriculum design and its assessment [EP 2.1 through 2.1.10(d)].*

⁴ Shulman, L. S. (2005, Summer). Signature pedagogies in the professions. *Daedalus*, 52-59.

- B2.0.4** *Provides a rationale for its formal curriculum design demonstrating how it is used to develop a coherent and integrated curriculum for both classroom and field (EP 2.0).*
- B2.0.5** *Describes and explains how its curriculum content (knowledge, values, and skills) implements the operational definition of each of its competencies.*

Accreditation Standard M2.0—Curriculum

The 10 core competencies are used to design the foundation and advanced curriculum. The advanced curriculum builds on and applies the core competencies in an area(s) of concentration. The program

- M2.0.1** *Identifies its concentration(s) (EP M2.2).*
- M2.0.2** *Discusses how its mission and goals are consistent with advanced practice (EP M2.2).*
- M2.0.3** *Identifies its program competencies consistent with EP 2.1 through 2.1.10(d) and EP M2.2.*
- M2.0.4** *Provides an operational definition for each of the competencies used in its curriculum design and its assessment [EP 2.1 through 2.1.10(d); EP M2.2].*
- M2.0.5** *Provides a rationale for its formal curriculum design (foundation and advanced), demonstrating how it is used to develop a coherent and integrated curriculum for both classroom and field (EP 2.0).*
- M2.0.6** *Describes and explains how its curriculum content (relevant theories and conceptual frameworks, values, and skills) implements the operational definition of each of its competencies.*

Accreditation Standard 2.1—Field Education

The program discusses how its field education program

- 2.1.1** *Connects the theoretical and conceptual contribution of the classroom with the practice setting, fostering the implementation of evidence-informed practice.*
- B2.1.2** *Provides generalist practice opportunities for students to demonstrate the core competencies.*
- M2.1.2** *Provides advanced practice opportunities for students to demonstrate the program's competencies.*
- 2.1.3** *Provides a minimum of 400 hours of field education for baccalaureate programs and 900 hours for master's programs.*
- 2.1.4** *Admits only those students who have met the program's specified criteria for field education.*
- 2.1.5** *Specifies policies, criteria, and procedures for selecting field settings; placing and monitoring students; maintaining field liaison contacts with field education settings; and evaluating student learning and field setting effectiveness congruent with the program's competencies.*

- 2.1.6** *Specifies the credentials and practice experience of its field instructors necessary to design field learning opportunities for students to demonstrate program competencies. Field instructors for baccalaureate students hold a baccalaureate or master's degree in social work from a CSWE-accredited program. Field instructors for master's students hold a master's degree in social work from a CSWE-accredited program. For cases in which a field instructor does not hold a CSWE-accredited social work degree, the program assumes responsibility for reinforcing a social work perspective and describes how this is accomplished.*
- 2.1.7** *Provides orientation, field instruction training, and continuing dialog with field education settings and field instructors.*
- 2.1.8** *Develops policies regarding field placements in an organization in which the student is also employed. To ensure the role of student as learner, student assignments and field education supervision are not the same as those of the student's employment.*

3. Implicit Curriculum

Educational Policy 3.0—Implicit Curriculum: The Learning Environment

The implicit curriculum refers to the educational environment in which the explicit curriculum is presented. It is composed of the following elements: the program's commitment to diversity; admissions policies and procedures; advisement, retention, and termination policies; student participation in governance; faculty; administrative structure; and resources. The implicit curriculum is manifested through policies that are fair and transparent in substance and implementation, the qualifications of the faculty, and the adequacy of resources. The culture of human interchange; the spirit of inquiry; the support for difference and diversity; and the values and priorities in the educational environment, including the field setting, inform the student's learning and development. The implicit curriculum is as important as the explicit curriculum in shaping the professional character and competence of the program's graduates. Heightened awareness of the importance of the implicit curriculum promotes an educational culture that is congruent with the values of the profession.⁵

Educational Policy 3.1—Diversity

The program's commitment to diversity—including age, class, color, culture, disability, ethnicity, gender,

⁵ Eisner, E. W. (2002). *The educational imagination: On the design and evaluation of school programs* (3rd ed.). New York: Macmillan.

gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation—is reflected in its learning environment (institutional setting; selection of field education settings and their clientele; composition of program advisory or field committees; educational and social resources; resource allocation; program leadership; speaker series, seminars, and special programs; support groups; research and other initiatives; and the demographic make-up of its faculty, staff, and student body).

Accreditation Standard 3.1—Diversity

- 3.1.1** *The program describes the specific and continuous efforts it makes to provide a learning environment in which respect for all persons and understanding of diversity and difference are practiced.*
- 3.1.2** *The program describes how its learning environment models affirmation and respect for diversity and difference.*
- 3.1.3** *The program discusses specific plans to improve the learning environment to affirm and support persons with diverse identities.*

Educational Policy 3.2—Student Development

Educational preparation and commitment to the profession are essential qualities in the admission and development of students for professional practice. To promote the social work education continuum, BSW graduates admitted to MSW programs are presented with an articulated pathway toward a concentration. Student participation in formulating and modifying policies affecting academic and student affairs are important for the student’s professional development.

Accreditation Standard 3.2—Student Development: Admissions; Advisement, Retention, and Termination; and Student Participation

Admissions

- B3.2.1** *The program identifies the criteria it uses for admission.*
- M3.2.1** *The program identifies the criteria it uses for admission. The criteria for admission to the master’s program must include an earned bachelor’s degree from a college or university accredited by a recognized regional accrediting association.*
- 3.2.2** *The program describes the process and procedures for evaluating applications and notifying applicants of the decision and any contingent conditions associated with admission.*
- M3.2.3** *BSW graduates entering MSW programs are not to repeat what has been mastered in their BSW programs. MSW programs describe the policies and procedures used for awarding*

advanced standing. These policies and procedures should be explicit and unambiguous. Advanced standing is awarded only to graduates holding degrees from baccalaureate social work programs accredited by CSWE, those recognized through its International Social Work Degree Recognition and Evaluation Service, or covered under a memorandum of understanding with international social work accreditors.

3.2.4 *The program describes its policies and procedures concerning the transfer of credits.*

3.2.5 *The program submits its written policy indicating that it does not grant social work course credit for life experience or previous work experience. The program documents how it informs applicants and other constituents of this policy.*

Advisement, retention, and termination

3.2.6 *The program describes its academic and professional advising policies and procedures. Professional advising is provided by social work program faculty, staff, or both.*

3.2.7 *The program spells out how it informs students of its criteria for evaluating their academic and professional performance, including policies and procedures for grievance.*

3.2.8 *The program submits its policies and procedures for terminating a student's enrollment in the social work program for reasons of academic and professional performance.*

Student participation

3.2.9 *The program describes its policies and procedures specifying students' rights and responsibilities to participate in formulating and modifying policies affecting academic and student affairs.*

3.2.10 *The program demonstrates how it provides opportunities and encourages students to organize in their interests.*

Educational Policy 3.3—Faculty

Faculty qualifications, including experience related to the program's competencies, and an appropriate student-faculty ratio are essential for developing an educational environment that promotes, emulates, and teaches students the knowledge, values, and skills expected of professional social workers. Through their teaching, scholarship, and service—as well as their interactions with one another, administration, students, and community—the program's faculty models the behavior and values expected of professional social workers.

Accreditation Standard 3.3—Faculty

3.3.1 *The program identifies each full and part-time social work faculty member and discusses her/his qualifications, competence, expertise in social work education and practice, and years of service to the program. Faculty who teach social work practice courses have a*

master's degree in social work from a CSWE-accredited program and at least two years of social work practice experience.

3.3.2 *The program discusses how faculty size is commensurate with the number and type of curricular offerings in class and field; class size; number of students; and the faculty's teaching, scholarly, and service responsibilities. To carry out the ongoing functions of the program, the full-time equivalent faculty-to-student ratio is usually 1:25 for baccalaureate programs and 1:12 for master's programs.*

B3.3.3 *The baccalaureate social work program identifies no fewer than two full-time faculty assigned to the program, with full-time appointment in social work, and whose principal assignment is to the baccalaureate program. The majority and no fewer than two of the full-time faculty has either a master's degree in social work from a CSWE-accredited program, with a doctoral degree preferred, or a baccalaureate degree in social work from a CSWE-accredited program and a doctoral degree preferably in social work.*

M3.3.3 *The master's social work program identifies no fewer than six full-time faculty with master's degrees in social work from a CSWE-accredited program and whose principal assignment is to the master's program. The majority of the full-time master's social work program faculty has a master's degree in social work and a doctoral degree preferably in social work.*

3.3.4 *The program describes its faculty workload policy and discusses how the policy supports the achievement of institutional priorities and the program's mission and goals.*

3.3.5 *Faculty demonstrate ongoing professional development as teachers, scholars, and practitioners through dissemination of research and scholarship, exchanges with external constituencies such as practitioners and agencies, and through other professionally relevant creative activities that support the achievement of institutional priorities and the program's mission and goals.*

3.3.6 *The program describes how its faculty models the behavior and values of the profession in the program's educational environment.*

Educational Policy 3.4—Administrative Structure

Social work faculty and administrators, based on their education, knowledge, and skills, are best suited to make decisions regarding the delivery of social work education. They exercise autonomy in designing an administrative and leadership structure, developing curriculum, and formulating and implementing policies that support the education of competent social workers.

Accreditation Standard 3.4—Administrative Structure

3.4.1 *The program describes its administrative structure and shows how it provides the necessary autonomy to achieve the program's mission and goals.*

- 3.4.2** *The program describes how the social work faculty has responsibility for defining program curriculum consistent with the Educational Policy and Accreditation Standards and the institution's policies.*
- 3.4.3** *The program describes how the administration and faculty of the social work program participate in formulating and implementing policies related to the recruitment, hiring, retention, promotion, and tenure of program personnel.*
- 3.4.4** *The program identifies the social work program director. Institutions with accredited BSW and MSW programs appoint a separate director for each.*
- B3.4.4(a)** *The program describes the BSW program director's leadership ability through teaching, scholarship, curriculum development, administrative experience, and other academic and professional activities in social work. The program documents that the director has a master's degree in social work from a CSWE-accredited program with a doctoral degree preferred or a baccalaureate degree in social work from a CSWE-accredited program and a doctoral degree, preferably in social work.*
- B3.4.4(b)** *The program provides documentation that the director has a full-time appointment to the social work program.*
- B3.4.4(c)** *The program describes the procedures for determining the program director's assigned time to provide educational and administrative leadership to the program. To carry out the administrative functions of the program, a minimum of 25% assigned time is required at the baccalaureate level. The program demonstrates this time is sufficient.*
- M3.4.4(a)** *The program describes the MSW program director's leadership ability through teaching, scholarship, curriculum development, administrative experience, and other academic and professional activities in social work. The program documents that the director has a master's degree in social work from a CSWE-accredited program. In addition, it is preferred that the MSW program director have a doctoral degree, preferably in social work.*
- M3.4.4(b)** *The program provides documentation that the director has a full-time appointment to the social work program.*
- M3.4.4(c)** *The program describes the procedures for determining the program director's assigned time to provide educational and administrative leadership to the program. To carry out the administrative functions of the program, a minimum of 50% assigned time is required at the master's level. The program demonstrates this time is sufficient.*

3.4.5 *The program identifies the field education director.*

3.4.5(a) *The program describes the field director's ability to provide leadership in the field education program through practice experience, field instruction experience, and administrative and other relevant academic and professional activities in social work.*

3.4.5(b) *The program documents that the field education director has a master's degree in social work from a CSWE-accredited program and at least 2 years of post-baccalaureate or post-master's social work degree practice experience.*

B3.4.5(c) *The program describes the procedures for determining the field director's assigned time to provide educational and administrative leadership for field education. To carry out the administrative functions of the field at least 25% assigned time is required for baccalaureate programs. The program demonstrates this time is sufficient.*

M3.4.5(c) *The program describes the procedures for determining the field director's assigned time to provide educational and administrative leadership for field education. To carry out the administrative functions of the field at least 50% assigned time is required for master's programs. The program demonstrates this time is sufficient.*

Educational Policy 3.5—Resources

Adequate resources are fundamental to creating, maintaining, and improving an educational environment that supports the development of competent social work practitioners. Social work programs have the necessary resources to support learning and professionalization of students and program improvement.

Accreditation Standard 3.5—Resources

3.5.1 *The program describes the procedures for budget development and administration it uses to achieve its mission and goals. The program submits the budget form to demonstrate sufficient and stable financial supports that permit program planning and faculty development.*

3.5.2 *The program describes how it uses resources to continuously improve the program and address challenges in the program's context.*

3.5.3 *The program demonstrates sufficient support staff, other personnel, and technological resources to support itself.*

3.5.4 *The program submits the library form to demonstrate comprehensive library holdings and/or electronic access and other informational and educational resources necessary for*

achieving its mission and goals.

3.5.5 *The program describes and demonstrates sufficient office and classroom space and/or computer-mediated access to achieve its mission and goals.*

3.5.6 *The program describes its access to assistive technology, including materials in alternative formats (e.g., Braille, large print, books on tape, assistive learning systems).*

4. Assessment

Educational Policy 4.0—Assessment

Assessment is an integral component of competency-based education. To evaluate the extent to which the competencies have been met, a system of assessment is central to this model of education. Data from assessment continuously inform and promote change in the explicit and implicit curriculum to enhance attainment of program competencies.

Accreditation Standard 4.0—Assessment

4.0.1 *The program presents its plan to assess the attainment of each of its competencies. The plan specifies procedures, multiple measures of each practice behavior, and benchmarks employed to assess the attainment of each of the program's competencies (AS B2.0.3; AS M2.0.4).*

4.0.2 *The program provides summary data and outcomes for the assessment of each of its competencies, identifying the percentage of students achieving each benchmark.*

4.0.3 *The program describes the procedures it employs to evaluate the outcomes and their implications for program renewal. It discusses specific changes it has made in the program based on specific assessment outcomes.*

4.0.4 *The program uses Form AS 4 (B) and/or Form AS4 (M) to report its most recent assessment outcomes to constituents and the public on its website and routinely up-dates (minimally every 2 years) these postings.*

4.0.5 *The program appends copies of all assessment instruments used to assess the program competencies.*
