- ✓ Career goal must be to lead practice, research, teaching, and policy in government or private organizations serving underrepresented and underserved persons with or at risk for mental health and/or substance abuse disorders.
- ✓ Must demonstrate potential for success in doctoral studies
- ✓ Cannot receive another source of federal funding during the fellowship year (loans excluded)

- ✓ Strength of individual applicants

Review Process

All applicants with complete application packages will be notified of their status at the conclusion of the 3-tiered review process, summarized below.

Individuals selected by the MFP Doctoral Advisory Committee will receive notification by email as soon as MFP receives the SAMHSA Notice of Award and determines the total number of new and renewed fellowships that can be awarded.

b. Writing Sample

Submit **one** of the following demonstrating your ability to think critically at the doctoral level of study and your commitment to issues related to mental health services (mental health and/or substance abuse) for ethnic/racial minority populations in the areas of prevention, treatment, or recovery:

- ✓ A term paper (*body of paper is limited to 15 double spaced pages (this excludes tables, cover page, and references)*). **Applications with term papers exceeding the limit will not be considered.**
- ✓ An article published in a refereed journal of which you are **the sole author** (*submit double spaced final proof version of article; co-authored works will not be considered.*)
- ✓ An original conceptual or theoretical paper presenting the foundation(s) of your approach to behavioral health services for racial/ethnic minority population(s). (*Body of paper limited to 15 double spaced pages; this excludes tables, cover page, and references.*)

It is *essential* that the document you submit meets the requirements below:

- ✓ The applicant’s name should be included on each page of the paper.

- ✓ Double spaced, properly referenced, written within the past 5 years
- ✓ Citations or references must be in a commonly accepted format such as APA
- ✓ Uploaded as a PDF

It is advised that applicants ask their advisor or another faculty member to read the paper and give feedback on whether the ability to think critically and conceptually at the doctoral level of study is clearly demonstrated.

c. Short Answer Responses

In the short-answer prompts you will be asked to demonstrate how your **personal, academic, and professional attributes, experiences and goals** align with the MFP mission and the Substance Abuse and Mental Health Services Administration's (SAMHSA's) goals for the MFP. These short-answer responses should engage reviewers in getting to know who you are and why you stand out from other applicants as the best fit for the fellowship. In other words, this section is intended to build a personal and professional narrative, rather than to convey a research statement. It is advised that applicants ask a faculty member and/or advisor to review responses and offer feedback prior to submission.

These responses support but should not repeat information regarding your area of research addressed in the Scholarly Paper or Conceptual Writing Sample.

Type your short responses in Microsoft Word or a similar program first, and then paste into the boxes provided in SurveyMonkey Apply (word limit = 500). The textbox is set to allow a maximum of 500 words. There is not an option to upload a separate document.

The image shows a screenshot of a SurveyMonkey application form. It contains four text input boxes, each with a 350-word limit. The prompts are as follows:

- Describe your academic journey and career plans as they relate to 1.) research, teaching, and/or 3.) practice. In doing so, please speak to how these align with SAMHSA's mission for the MFP to a) advance social justice with BIPOC communities, by addressing issues related to mental health challenges and/or substance use.
- Describe how being part of the MFP would impact/support your career trajectory as it relates to 1.) research, 2.) teaching, and/or 3. practice related to mental health and/or substance use in BIPOC communities.
- Please outline 1-3 mental health and/or substance use disorder clinical training "SMART" goals, making sure to address how these goals relate to the Substance Abuse and Mental Health Services Administration's (SAMHSA's) goals for the MFP.
- How do you define antiracism? What behaviors in your personal and professional life support your antiracist definition and interactions? In other words, how do your antiracist beliefs "show up" in your personal and/or professional life? How might your practice philosophy and interventions demonstrate your antiracist commitment?

Each text box includes a rich text editor toolbar with icons for bold, italic, underline, bulleted list, numbered list, link, and unlink. A word count indicator at the bottom right of each box shows "Limit: 350 words".
